Aims and scope

[Nova Geodesia](#) is a peer-reviewed quarterly journal aimed at disseminating significant research and original papers, critical reviews and short reviews in the geodesy, as an applied science that studies the shape and dimensions of the Earth, for the preparation of maps and plans. In this wide area, there are included close topics, related to cartography, urban administration and environment, engineering projects and construction such as dams, bridges, plants, border marking, landscape and ecology, environmental administration, geography, planetology, hydrograph. Articles should make a significant contribution to the advancement of knowledge or toward a better understanding of these concepts. The journal was created by researchers from Romanian universities as a necessity for the development of this field with relatively few specialized publications in Romania and Southeast Europe. An Editorial Board advises the journal. The total content of the journal may be used for educational, non-profit purposes without regard to copyright. The distribution of the material is encouraged with the condition that the authors and the source ([Nova Geodesia](#)) are mentioned.

Notice

- **Material disclaimer**
 - The authors are fully responsible for their work and they hold sole responsibility for the articles published in the journal.
- **Maps and affiliations**
 - The publisher stays neutral with regard to jurisdictional claims in published maps and institutional affiliations.
- **Responsibilities**
 - The editors, editorial board and publisher do not assume any responsibility for the article's contents and for the authors' views expressed in their contributions. The statements and opinions published represent the views of the authors or persons to whom they are credited. Publication of research information does not constitute a recommendation or endorsement of products involved.

Publication Frequency

Quarterly (four issues per volume/year). The journal appears quarterly, with the next coverage over the four annual numbers (combined months):

Issue 1: January-March

Issue 2: April-June

Issue 3: July-September

Issue 4: October-December

Publication Ethics and Publication Malpractice Policy

The journal respects the publication ethics norms, based on internationally accepted best practice guidelines for journal editors, notably the Committee on Publication Ethics ([COPE](#)), the World Association of Medical Editors ([WAME](#)), the International Committee of Medical Journal Editors ([ICMJE](#)), Consolidated Standards of Reporting Trials ([Consort](#)).

Submission

The journal offers to authors a fully web-enabled online manuscript submission, instructions for authors and review system available at <https://novageodesia.ro/index.php/ng/procedures>. Papers are published in English (British spelling) and the authors are fully responsible for the originality of their papers and for the correctness of their subject-matter, language and formal attributes. A language reviewer revises English, but authors are strongly urged to have the papers reviewed linguistically prior to submission. Manuscripts submitted must be edited, for clarity and conformity purposes according to [Authors guidelines](#), and must not have been previously published or simultaneously submitted elsewhere. The papers can be submitted online by the corresponding author (or the person who takes responsibility for the integrity of the work as a whole, from submission to the published article). The submission process is described on the web site. An [Author Statement](#), available on the website, should be enclosed by corresponding author declaring that the paper has not been published anywhere else, permission to reproduce the material, authorship credit, contributors and creditors for the integrity of the work as a whole, to avoid the conflicts of interest and scientist fraud, and respecting the ethical principles of publishing, research and scientific rights.
